To all our Valued Customers.

RE: Price increase on BioLock and BQT Access Control System

We regret to inform you that due to further increase in material cost and rising operational cost, BioLock and 4C Solutions (Formerly BQT Australia), our local Australia based manufacturer has increased their pricing.

We have no choice but to pass this increase on to our customers, but to our best ability, we have kept it to a minimum.

All the new pricing has been correctly updated on our website, but please check with your sales representatives for any future quotes.

Past quotes from January till end of February, we will honour it.

Thank you for your understanding and your continued support.

Best Regards
